The dashboard is divided into two main sections. The left section, titled 'new alert', contains input fields for 'ammonia level' (with a '<=' operator), 'oxygen demand level' (with a '>=' operator), 'other nutrient level' (with an '=' operator), and an 'email' field. Below these is a 'set new alert' button. The right section, titled 'current alerts', shows two rows of a 'wavy line icon' followed by a checked toggle switch.
